PERSONAL PROFILE

I am an honest and trustworthy person who may appear quite quiet on first meetings, but this enables me to get on with the job in hand efficiently and effectively. Experience working within a team whilst also capable resolving any day-to-day problems independently. Consistently strives to improve own performance and daily systems for the overall good of the employer. Although I have been a support worker for a long time, computing is where my future lays.

KEY SKILLS

- Planning
- knowledge of agile techniques
- Makes maximum use of allocated funds and resources
- Interpersonal skills
- Make use of new technologies
- Time management
- Practices continuous personal development
- Computational thinking skills
